## CREATINE FUEL® MEGA

Research shows creatine users had a significant increase in peak power output, lean muscle mass and muscular performance. \* Twinlab Creatine Fuel® Mega delivers 3,600 mg of the most proven form of creatine in every capsule. \*

**BUILD IT.**

## RIPPED FUEL® XTENDR

Extend the burn with Ripped Fuel® Xtendr. Counteract the body's tendency to hold on to fat after weight loss with this patent-pending formula that burns more calories and boosts energy, and may improve the ratio of lean muscle mass. \*

**EXTEND IT.**

## CLA FUEL®

Sculpt a stronger form with CLA Fuel®. Clinical studies show that CLA, or conjugated linoleic acid, reduces body fat while preserving lean muscle mass. \*

**SHAPE IT.**

## JOINT FUEL®

Power through impact sports with Joint Fuel®. Glucosamine and Vitamin C combine to nutritionally support joint function and flexibility so you can keep moving. \*

**RUN WITH IT.**

## BCAA FUEL®

Branched Chain Amino Acids (BCAA's) are essential amino acids that cannot be made by the body and must be consumed in the diet. They are quickly broken down during exercise and so supplementation with Twinlab BCAA Fuel® helps increase lean muscle mass and strength as well as post-exercise recovery. \*

**BUILD IT.**

## RIPPED FUEL® EXTREME

Fueled by a patented proprietary herbal extract and green tea, Ripped Fuel® Extreme delivers a fat burner that targets stubborn fat storage. \*
