

NEW YEAR'S REVOLUTION

Five Performance Products for a Better Body in 2008

THIS IS THE YEAR TO CHANGE YOUR BODY FOR THE BETTER.

As part of your resolution, look to Twinlab® for help—its line of performance products is designed to help you improve muscle definition, increase energy, build mass, speed recovery and gain strength. Read on for information that will jump-start your workout regimen and nutrition goals to build a new, improved you in 2008.

GET IT

This is your year to get six-pack abs. As part of your core, strong abs help protect you from injuries, support your back, and give you more power. Twinlab Ripped Fuel® 5X can help to reduce body fat and maintain lean muscle to get you ripped.* Its super-concentrated formula has five distinct nutritional mechanisms to energize your diet with less than 100 mg of caffeine per serving, giving you the power to decrease fat and promote lean muscle mass.*

PUMP IT UP

Pump up your strength training this year with Twinlab Nitric Fuel™. This bi-layer tablet uses fast-dissolve technology to deliver cell-volumizing nitric oxide and beta alanine to enhance strength, while the second layer saturates more slowly to fuel sustained and intense workouts. The result? A pre- and post-workout "muscle pump" to help increase peak power output and strength all in one.*

POWER YOUR CARDIO

To help you power through your cardio workout, try Twinlab Endurance Fuel™. Far more than a simple carb and electrolyte drink, the multi-stage formula of this powdered beverage contains an anti-oxidant defense complex, timed-release carbs for sustained energy, beta alanine for increased power and strength, and a two-phase protein blend to reduce muscle breakdown during intense exercise.*

PURIFY YOUR SYSTEM

The holidays and New Year's Eve celebrations are fun, but they can leave you stressed, tired and full of pollutants that can overwhelm the body. When you begin your new exercise regimen, toxins can also build up through intense exercise. Help purify your body by using Twinlab Liver D-Tox Fuel™, which stimulates your body's own detoxification activity using a proprietary herbal Purification Matrix™.*

EXTEND IT

Keeping up a new fitness and diet plan is as important as starting it. To help maintain your more defined look, Ripped Fuel® Xtendr's unique patent-pending formula amplifies calorie burn, and can improve the ratio of lean muscle mass and keep you energized to fuel your workouts.*

Customize your workout and nutrition plan with our entire line of sports nutrition products. Visit Twinlab.com for more information.
